---

## THREE DAY-EVENT SCHEDULE

### Saturday

- 7:30am - 8:00am: Coffee and tea.
- 8:00am - 8:10am: Introduction of everyone, and set the stage for the workshop.
- 8:10am - 10:00am: Carlos, Chief Engineer, will answer attendee's questions about basic functions, tools and indicators in Fibonacci Trader.
- 10:00am - 10:20am: Break
- 10:20am - 12:00pm: Woodie discusses his favorite setup and how to find low risk trades.
- 12:00pm - 1:00pm: Lunch
- 1:00pm - 2:30pm: Woodie continues his presentation of his favorite setup and answers questions.
- 2:30pm - 2:45pm: Break
- 2:45pm - 4:00pm: Carolyn Boroden discusses how she uses Fibonacci retracements and extensions to identify zones for low risk trades and how to use symmetry in the price action.
- 4:00pm - 4:15pm: Break
- 4:15pm - 5:30pm: Carolyn continues her discussion of her techniques to find low risk trades.

### SUNDAY

- 7:30am - 8:00am: Coffee and tea.
- 8:00am - 8:10am: Introduction and set the stage for the day.
- 8:10am - 10:00am: Money management and how to make sure you are not setting yourself up to fail.
- 10:00am - 10:20am: Break
- 10:20am - 12:00pm: Dennis will show how the latest upgrades to Fibonacci Trader software can be used to overlay multiple time frame fib levels on just one chart.
- 12:00pm - 1:00pm: Lunch provided.
- 1:00pm - 2:30pm: Building a trading plan that works. Techniques for trading with the trend and how to correctly define it. Find safe low risk trades in the direction of the trend.
- 2:30pm - 2:45pm: Break
- 2:45pm - 4:15pm: Dennis will pull both Woodie's and Carolyn's work into Fibonacci Trader and show you how to develop a trading plan that works for you. The setup, the entry rules and then how to manage the trade until it's over.
- 4:15pm - 4:30pm: Break
- 4:30pm - 5:30pm: Setting up for the next day's trading.

### MONDAY

- 7:30am - 8:00am: Coffee and Tea.
- 8:00am - 8:30am: Dennis will set up for the day's trading.
- 8:30am - 3:15pm: Dennis will trade live as he did in Orlando, discussing what he sees in the market, and taking each setup, entering the trade, and managing it live. No BSski! We'll show the good, bad and ugly. Lunch will be served during the trading session. Box Lunch served.

To best understand the trading plan and to follow the trades done on Monday in real-time, everyone attending the workshop should have installed on their lap top a working version (or the 30 day free trial) of the Fibonacci Trader, and once you register, we will email to you the working Bolze template with the proper indicators for his setups.

No recording of the workshop is permitted. Tapes will be available for purchase.  
Attendees are required to sign a non-disclosure form due to the proprietary nature of the workshop.

**CALL 904-260-1515 OR E-MAIL PAS24@AUG.COM**

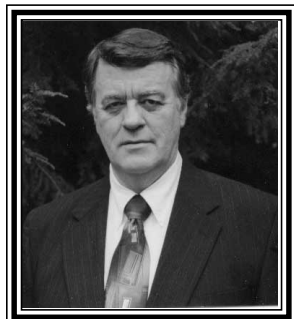

---

DO YOU STRUGGLE WITH ORDER EXECUTION?

DO YOU FIND YOURSELF ADJUSTING YOUR CHARTS DURING THE DAY AND MISSING A TRADE, AND WONDER WHY?

DO YOU HAVE A FEW LOSERS IN A ROW AND CAN'T TAKE THE NEXT TRADE, THEN SIT THERE AND WATCH IT MAKE A PROFIT, AND WONDER WHY YOU DIDN'T TAKE THE TRADE?

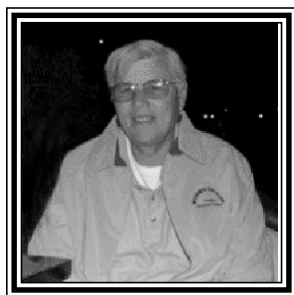

THIS WORKSHOP IS DESIGNED FOR YOU! MONDAY YOU WILL SEE LIVE TRADING, REAL-TIME!

*Dennis Bolze* is director of research and development for Advanced Trading Services and a full-time E-mini index trader. During his years at Hat Trading Corporation, a floor brokerage firm at the Chicago Mercantile Exchange, Mr. Bolze became chief technical analyst. Mr. Bolze collaborated in researching time and price squaring using Gann theories and Fibonacci support/resistance analysis with Robert Krausz at Fibonacci Trader Corp., from 1997 until Robert's untimely death in 2002. Mr. Bolze's research demonstrated the importance of multiple time frame confluences, and he developed tools to take advantage of these in current market conditions. He has been a featured speaker at Fibonacci Trader workshops ([www.fibonaccitrader.com](http://www.fibonaccitrader.com)), a weekend feature on Lewis Borsellino's TeachTrade Web site, and has taught the use of market internals with Fibonacci confluences at Carolyn Boroden's Syncmt.com live trade-a-longs. Recently, Mr. Bolze spoke at the June Chicago Traders Expo.

*Carolyn Boroden* ([www.syncmt.com](http://www.syncmt.com)) is a commodity trading advisor (CTA) and technical analyst who has been involved in the trading industry since 1978. Her background includes working on the major trading floors including the Chicago Mercantile Exchange, the CBOT, NYFE and COMEX. She taught a segment of the Chicago Commodity Boot Camp seminars for 4 years on advanced trading techniques using Fibonacci ratios on both the time and price axis of the market. She has also lectured for the Market Technicians Association, Tradingmarkets.com and the International Traders Expo on technique. She currently runs an intraday trading advisory service from Scottsdale, AZ for both institutional and individual clients. This service is broadcast live through the "hotcomm" webconferencing software.

*Ken Wood* (Woodie of [www.woodiescciclub.com](http://www.woodiescciclub.com)) will talk about trading the CCI and some of the CCI patterns and also show what he calls "priceless" trading. Ken has been an independent trader for 26 years, many of which were spent identifying and developing CCI patterns. Wood has taught traders his technique using the CCI methods in my chat room on hotcomm.com, home to 600+ CCI traders daily. Aside from conducting online seminars for the Chicago Board of Trade, Wood has been a speaker at many CCI conferences as well as providing as a host of many seminars throughout the United States. Recently interviewed on 3 radio programs about his CCI method and wrote an article for Active Trader magazine, May 2004 issue on the topic of the CCI ghost.

#### **FIBONACCI TRADER™ AND GALACTIC TRADER™ SPECIAL COMBINATION RATE**

Special bonus rate available for basic/beginner Galactic Trader Conference, September 21 and 22, 2004 featuring T.S. Phillips of PAS, Inc. Phillips will be teaching basic planetary cycles for traders, how to convert the longitude of the planets into planetary price lines, how to use planetary aspects and harmonics to identify correct price levels for reversals in advance. Learn how to combine the Galactic Trader with the Fibonacci Trader software to create the ultimate trading system. The cost is \$618 for each workshop or \$1144 for both. The early-bird discount is \$545 for each or \$1044 for both if you reserve by August 16th.

Risk Disclosure: Neither Fibonacci Trader Corp. or PAS Astro, Inc. in no way guarantees that any technique or system presented in this workshop will produce profits in actual trading. Past performance based upon hypothetical testing or trading is no guarantee of future results. Use of this product, techniques presented for trading or investments of any kind is done solely at the user's risk. Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and the actual results achieved by any particular program. One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk in actual trading. For example, the ability to withstand losses or to adhere to a particular trading program in spite of trading losses are material points which can adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program, which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect actual trading results.
